

March 23, 2020 - Update

Good evening,

I hope that everyone is staying well and exhibiting good social distancing practices. We know that this is the only way to truly address the spread of COVID-19.

As you are no doubt aware, Doug Ford, the Premier of Ontario announced this afternoon that Ontario will be expanding its state of emergency to shut down “non-essential services”. Further details about this shut down will be announced tomorrow. For us, in the healthcare field, it is business as usual for the vast majority of our services. Please be assured that your loved ones continue to be our number one priority and our staff continue to be committed to providing exceptional care to them as we navigate through these unprecedented and challenging times.

We continue our commitment to best practice approaches to care, while incorporating the recommendations and directives being given by Public Health and the Ministry of Health. We are pleased to report, once again this evening, that we have no active cases of COVID-19 to date in any of our facilities. We know how important it is to keep you informed and will continue to provide you with regular updates via this website.

Take care and stay healthy

A handwritten signature in blue ink that reads "Steve Sherrer". The signature is fluid and cursive, with a long horizontal stroke at the end.
